First-Year B.Tech Student

ARTIFICIAL INTELLIGENCE & AUTOMATION

Hi, I'm Ruhani

Aspiring AI Engineer | Automation Enthusiast

I'm pursuing Computer Science with a specialization in Artificial Intelligence at Geeta University. I'm passionate about learning Python, exploring AI, and building smarter workflows through automation. My goal is to turn ideas into useful, AI-powered solutions.

01 / ABOUT

A Little About ME.

Learning Today. Building For Tomorrow.

Hello! I'm **Ruhani**, a first-year B.Tech student at Geeta University, specializing in Computer Science with AI.

I'm at the beginning of my technology journey, developing my programming foundations while exploring artificial intelligence and workflow automation.

I believe in learning by doing, collaborating with others, and using technology to solve meaningful problems. I'm working towards becoming an AI Engineer and continuously expanding my technical abilities.

What I'm focused on

Artificial Intelligence
Understanding AI concepts and applications

Workflow Automation
Exploring n8n and automated workflows

Programming
Strengthening Python fundamentals

Continuous Learning
Building skills through practical experience

02 / SKILLS

My Technical Toolkit.

The programming languages, technologies, and automation concepts I'm developing as I work towards my AI engineering goals.

Programming

Building a strong foundation in coding.

Python

Web Development

Creating and structuring web pages.

HTML5 CSS3

AI Fundamentals

Exploring artificial intelligence and its applications.

AI Basics | AI Concepts

Automation

Exploring workflows that connect tasks and services.

n8n Automation | Workflow Automation

03 / RECOGNITION

Academic Achievements.

A milestone in my early journey into technology, teamwork, and innovation.

SIH - UNIVERSITY-LEVEL RECOGNITION

Selected among the Top 15 teams at University level

Nominated as part of a team for the Smart India Hackathon (SIH) through the university selection process. Our team reached the university's **Top 15**, marking an important step in my experience with collaborative problem-solving and innovation.

This experience helped me contribute to a team project, prepare a presentation, and communicate our proposed solution.

TOP 15

04 / EDUCATION

My Academic Journey.

UNDERGRADUATE DEGREE

Bachelor of Technology (B.Tech)

Geeta University

Computer Science with Specialization in Artificial Intelligence

Currently in 1st Year

Program: B.Tech | Specialization: AI | Expected Graduation: 2030
